SPECIALISED IN-SCHOOL TRAINING FOR TEACHERS

The BSN Language Centre has successfully organised courses to help teachers in primary, secondary and tertiary education to develop their English languages skills and increase their confidence in using English in the classroom. These courses are particularly useful for institutions using the bi-lingual system in education and can be organised following a needs analysis of the teaching system and learning environment at the institution. These courses can also prepare teachers for the CLIL (Content & Language Integrated Learning), which is a new optional module of the Cambridge ESOL Teaching Knowledge Test (TKT). The procedure for setting up 'in-school' training for teachers is the same as the procedure for 'in-company' courses.
